PROFESSIONAL SUMMARY

Salesforce veteran and product leader with 15+ years of experience scaling CRM platforms across complex enterprise environments. 13x Salesforce Certified Architect & Specialist, All-Star Trailhead Ranger, and Agentforce AI pioneer. Proven ability to translate business complexity into scalable Salesforce solutions, blending high-level Centre of Excellence (CoE) strategy, deep technical architecture, and hands-on delivery. Extensive background in General IT Management, financial budgeting, and vendor relations.

CORE COMPETENCIES

Salesforce Platform: Enterprise Architecture, Multi-Instance Governance (20+), Sales/Service Cloud, Sharing & Visibility, Data Modeling, Hands-on Data Analysis & Testing
AI & Innovation: Agentforce Specialist, Google Gemini Integration, Generative AI Strategy, Prompt Builder
Leadership & Operations: CoE Strategy & Roadmap Design, Project & Financial Management, Executive Stakeholder Alignment, General IT & Business Systems Management, Vendor Relations

PROFESSIONAL EXPERIENCE

Manager, Salesforce Centre of Excellence Aug 2015 – Present
Fletcher Building | Auckland, NZ

- Architected & Scaled CoE:** Directed the evolution from a fragmented, decentralized CRM landscape into a centralized enterprise Centre of Excellence. Architected the operating model robustly supporting 20 distinct Salesforce instances and 35+ business units, serving 3,000+ active licenses globally.
- Generative AI Pioneer & Evangelist:** Spearheading the enterprise transition to AI workflows and driving the business rollout of Google Gemini. Won the 2025 FletcherTech Enterprise Competition for building the "KT Problem Solving Agent" and won "Best Vibe Programming Solution" in a 2025 Google workshop.
- Executive Stakeholder & Vendor Alignment:** Act as the critical bridge between business operations and technology. Manage C-suite priorities, orchestrate enterprise-wide technical roadmap planning, negotiate complex vendor SLAs, and lead massive change management programs.
- Project & Financial Management:** Operate the CoE as a highly efficient, standalone business unit with full accountability for its budget and financial performance. Lead complex business case development, meticulous project estimation, and end-to-end lifecycle management.
- Hands-on Technical Delivery:** Maintain deep technical proficiency to unblock teams—directly delivering critical project configurations, executing rigorous system testing, and performing complex data analysis.

Business Systems Manager Jul 2010 – Aug 2015
Fletcher Aluminium | Auckland, NZ

- In conjunction with the FA Senior Management Team, created and implemented “best practice” customer systems to maximize long-term profitability and sustainability across 3 business units (Shapes, Windows & Doors, Commercial).
- Championed the vision, values, and objectives of FA with an emphasis on “Zero Harm” and customer intimacy.
- Architected and implemented Salesforce across internal business units and 80+ franchise partners, establishing a scalable CRM model that greatly improved customer visibility and pipeline tracking.

Business Technology Manager Aug 2009 – Jul 2010
Retail Dimension | Auckland, NZ

- Managed end-to-end IT strategy across Auckland (Sales & Projects) and Wellington (Manufacturing) branches for a \$12M manufacturing and design business.
- Delivered cost-effective IT infrastructure and re-engineered key business processes to improve gross margin performance.
- Introduced new technologies (SharePoint, SQL Server) to resolve workflow bottlenecks and streamline financial audit trails.

IT Business Manager Oct 2005 – Aug 2009
Lexicon Systems Ltd | Albany, NZ & Asia-Pacific

- Applied professional IT strategies across Australasia’s largest retail branding company, spanning operations in Auckland, Brisbane, Melbourne, Sydney, and Shanghai.
- Built sound wide area network (WAN) and virtualized server infrastructure across New Zealand and Australia, successfully merging technology platforms post-acquisition.
- Delivered a major Gross Margin Recovery Project and implemented Client Vault, an extranet solution for key clients (Vodafone, BNZ, Westpac).

IT Business Manager Sep 2000 – Oct 2005
Hallmark Cards NZ Ltd

- Worked with Hallmark NZ to ensure full, efficient use of IT, maximizing technology ROI and managing SLAs.
- Managed the LACS (Label Application and Accounting System) rollout for Supply Chain, successfully resolving distribution and freight reconciliation issues.
- Established and led a Super User Program focused on business process mapping, delivering multiple projects that reduced time and cost.

EDUCATION & QUALIFICATIONS

- Master of Applied AI (Currently Undertaking)** – AUT University
- Master of Service-Oriented Computing (With Distinction)** – AUT University (2013-2015) **Dean's Award Recipient*

- **Diploma in Business Programming** – SPHERION / Computer Power (2001-2003)
- **National Diploma in Fine Art, Design and Applied Arts** – Vaal Triangle Technikon (Vaal University of Technology) (1989-1991) **NZQA Assessed Equivalent to 3 Year Diploma in Visual Arts*
