PROFESSIONAL SUMMARY

Salesforce veteran and product leader with 15+ years of experience scaling CRM platforms across complex enterprise environments. 13x Salesforce Certified Architect & Specialist, All-Star Trailhead Ranger, and Agentforce AI pioneer. Proven ability to translate business complexity into scalable Salesforce solutions, blending high-level Centre of Excellence (CoE) strategy, deep technical architecture, and hands-on delivery. Extensive background in General IT Management, financial budgeting, and vendor relations.

CORE COMPETENCIES

Salesforce Platform: Enterprise Architecture, Multi-Instance Governance (20+), Sales/Service Cloud, Sharing & Visibility, Data Modeling, Hands-on Data Analysis & Testing

AI & Innovation: Agentforce Specialist, Google Gemini Integration, Generative AI Strategy, Prompt Builder

Leadership & Operations: CoE Strategy & Roadmap Design, Project & Financial Management, Executive Stakeholder Alignment, General IT & Business Systems Management, Vendor Relations

PROFESSIONAL EXPERIENCE

Manager, Salesforce Centre of Excellence

Aug 2015 – Present

Fletcher Building | Auckland, NZ

- **Architected & Scaled CoE:** Directed the evolution from a fragmented, decentralized CRM landscape into a centralized enterprise Centre of Excellence. Architected the operating model robustly supporting 20 distinct Salesforce instances and 35+ business units, serving 3,000+ active licenses globally.
- **Generative AI Pioneer & Evangelist:** Spearheading the enterprise transition to AI workflows and driving the business rollout of Google Gemini. Won the 2025 FletcherTech Enterprise Competition for building the "KT Problem Solving Agent" and won "Best Vibe Programming Solution" in a 2025 Google workshop.
- **Executive Stakeholder & Vendor Alignment:** Act as the critical bridge between business operations and technology. Manage C-suite priorities, orchestrate enterprise-wide technical roadmap planning, negotiate complex vendor SLAs, and lead massive change management programs.
- **Project & Financial Management:** Operate the CoE as a highly efficient, standalone business unit with full accountability for its budget and financial performance. Lead complex business case development, meticulous project estimation, and end-to-end lifecycle management.
- **Hands-on Technical Delivery:** Maintain deep technical proficiency to unblock teams—directly delivering critical project configurations, executing rigorous system testing, and performing complex data analysis.

Business Systems Manager

Jul 2010 – Aug 2015

Fletcher Aluminium | Auckland, NZ

- Led customer systems and business technology across three major channels serving 80 franchise partners and 140+ direct accounts.

- Architected and implemented Salesforce across 3 internal business units and 80 franchise partners, establishing a scalable CRM model that greatly improved customer visibility and pipeline tracking.
- Began building foundational Salesforce expertise while simultaneously completing a Master's degree, bridging academic theory with enterprise-scale CRM implementation.

Business Technology Manager

Aug 2009 – Jul 2010

Retail Dimension | Auckland, NZ

- Managed end-to-end IT strategy and business systems across Auckland and Wellington operations, overseeing infrastructure, vendor relations, and technology budgets.
- Drove Business Systems Development by implementing SharePoint collaboration tools and custom SQL reporting solutions to enhance gross margin performance and streamline financial audit trails.

IT Business Manager

Oct 2005 – Aug 2009

Lexicon Systems Ltd | Albany, NZ & Asia-Pacific

- Directed ANZ and Asia-Pacific IT strategy for Australasia's largest retail branding firm, with complex operations spanning Auckland, Brisbane, Melbourne, Sydney, and Shanghai.
- Standardized project management methodologies across regional teams and spearheaded major Business Systems Development initiatives, notably the end-to-end implementation of Microsoft Dynamics SL.

IT Business Manager

Sep 2000 – Oct 2005

Hallmark Cards NZ Ltd

- Partnered with regional and global IT teams to maximize technology ROI across the organization.
- Honed core General IT Management and Business Systems Development competencies by leading diverse systems projects, developing Super User capabilities, and advocating for NZ business interests globally.

EDUCATION & QUALIFICATIONS

- **Master of Applied AI (Currently Undertaking)** – AUT University
- **Master of Service-Oriented Computing (With Distinction)** – AUT University (2013-2015) **Dean's Award Recipient*
- **Diploma in Business Programming** – SPHERION / Computer Power (2001-2003)
- **National Diploma in Fine Art** – Vaal University of Technology (1989-1991)
